WHAT ARE COMPLETE STREETS?

Complete Streets are streets that are safe, comfortable, and convenient for all users – including people walking, bicycling, driving, and riding transit – regardless of age or ability. A Complete Streets approach seeks to balance the needs of different modes of travel to provide a transportation network that works for everyone.

WHAT IS THE FERRY TO BRIDGE TO GREENWAY COMPLETE STREETS PLAN?

The Ferry to Bridge to Greenway Complete Streets Plan is an exciting opportunity to provide valuable connections for people bicycling and walking to the new Richmond Ferry, the upcoming Richmond-San Rafael Bridge multi-use path, and the Richmond Greenway. The Richmond Bridge to Ferry to Greenway Complete Streets Plan will provide strategies for bicycle and pedestrian improvements on routes leading to the new Richmond Ferry terminal as well as the multi-use path on the Richmond-San Rafael Bridge (opening in Spring 2019).

These new connections will have regional significance, connecting three counties (San Francisco, Contra Costa and Marin) together for the first time with pedestrian and bicycle facilities that have not existed before. Improved facilities will connect to the San Francisco Bay Trail leading into Berkeley to the south, as well as north to North Richmond and beyond. Improvements will also connect to the Richmond Greenway, which leads through the heart of Richmond and connects two BART stations.

The Plan will incorporate abundant local community input, with creative engagement intended to bring a wide variety of voices to the planning process.
